How we benefit you

Flexibility

Manage your own diary to suit your professional and lifestyle goals

Variety of work

Provide opportunities to translate your knowledge into new ways of working

Clinical and operational support

By taking care of you, together we provide care to be proud of

Learning & development

Investing in you to enhance skills is at the forefront of our thinking

Specialist areas to explore

FUNCTIONAL REHAB

HOUSING & EQUIPMENT

SEATING & POSTURE

NEURO REHAB

HAND THERAPY

PAEDIATRICS

“Working independently allows me to choose work in a variety of fields of practice. I'm able to ask questions, get support and receive advice enabling me to be a better clinician.”

Type of work available to you

With over 300 associate OTs based across the UK, our team undertake independent work alongside other roles, usually dedicating 1-3 days a week for The OT Practice.

Individual cases

Meet the needs of a variety of referrers including case managers, charities, private clients and local education authorities.

Placements

Work in schools, clinics, hospitals or care homes both short or long-term.

Project Work

Work in the community to support the public sector and help the NHS and local authorities to reduce waiting lists.

Investing in you

To ensure the consistent delivery of high quality care we have built a strong clinical and operational team dedicated to supporting you to develop a diverse career portfolio. No matter your level of experience we will offer you the opportunity to enhance your transferrable skillset and continue your professional development in independent practice.
